The San Marcos High School Alpha Knights Robotics team, would like to invite you to participate as a sponsor for our First Robotics Team #6695, for the 2019-2020 season. We were the 2017 Rookie All-Star and a Qualcomm's Matt Grob Innovation awards recipient at the San Diego Regional Competition. In 2019, we were finalist at the San Diego First Robotics Regional competition, going on to compete at then *FIRST* World Robotics Championship in Houston, Texas. We are now in our fourth year and we need your help to raise approximately $15,000 to support our goals .

FIRST is a robotics competition founded by inventor Dean Kamen. *FIRST* is an acronym for "For Inspiration and Recognition of Science and Technology." Our team goals are to provide students with hands on opportunities to work with advanced robotics, to increase awareness of the operation and importance of robotics and to provide opportunities for students to collaborate and solve real world problems.

Students focus not only on engineering and design, but also develop leadership, team building, and communications skills. These experiences provide us with transformative skills to become the next leaders in our community. As a result, Alpha Knights have been sharing their knowledge and enthusiasm with students in both elementary and middle school to introduce robotics to the next generation of Alpha Knights. We have also been partnering with local Girl Scout troops to promote women in STEM, and have engaged with other *FIRST* teams, providing mentoring opportunities to newer robotics teams and a *FIRST* Lego League Jr. team.

We thank you and look forward to your support. Should you have any questions, please contact Bob O'Neill (Coach/Advisor) at bob.oneill@smusd.org **San Marcos High School ABC is a 5013c non-profit organization #23-73516332**
